

Post-baccalaureate Certificate: Policy on fulfilling the requirement for a major research paper

In order to obtain a post-baccalaureate certificate, students must take four half courses in the area of natural resources, energy or environmental law or related area. At least two of those courses must be at the 600 level and at least one with a research paper evaluation.

In order to qualify as a research paper evaluation the research paper component must count for at least 50% of the grade in the course.

In order to graduate you will need to complete this form.

I,

completed a research paper evaluation (as defined above) in the following course [Indicate the weight attached to the research evaluation in that course]
